Q4 2025 Fund Commentary

Commentary and opinions are provided by Mackenzie Investments.

Market commentary

Canada's economy showed signs of strain in the fourth quarter as U.S. tariffs and weakening trade flows continued to pressure manufacturing and export-oriented sectors. Business confidence softened, and labour-market momentum faded, although household spending remained stable heading into year-end.

The Bank of Canada held its policy rate at 2.25% in December following its 25-basis-point rate cut in October, citing moderating inflation and persistent economic uncertainty. Canada's unemployment rate rose to 6.8% in December, as labour-force growth outpaced hiring and trade-sensitive industries showed renewed weakness.

The Canadian equity market advanced in the quarter, with the S&P/TSX Composite Index rising about 6.3%, supported by strength in the materials and consumer discretionary sectors. Information technology also contributed, while energy lagged broader market gains amid softer crude oil prices through year-end.

Performance

Relative exposure to Aritzia Inc. contributed to the Fund's performance. The company's shares rose because of positive revenue and earnings performance. Relative exposures to Tamarack Valley Energy Ltd. and Headwater Exploration Inc. contributed to the Fund's performance based on positive operating results.

Relative exposures to AutoZone Inc., OR Royalties Inc. and Constellation Software Inc. detracted from the Fund's performance. AutoZone and OR Royalties both posted lower-than-expected earnings expectations. Constellation Software was under pressure from concerns around a surrounding artificial intelligence (AI) disintermediation.

At a sector level, stock selection in the communication services, energy and consumer staples sectors contributed to performance. Underweight exposure to the materials sector and overweight exposure to the industrials sector detracted from performance.

Portfolio activity

A holding in Ross Stores Inc. was added to the Fund because of the company's store growth and branded merchandise strategy. A holding in Celestica Inc. was added based on the company's exposure to AI infrastructure. The sub-advisor added a holding in Barrick Mining Corp. because of its lower valuation, cost control and the potential of its Fourmile mine in Nevada. A holding in Lundin Mining Corp. was added for the company's exposure to copper. A holding in Cameco Corp. was increased because of renewed focus on nuclear power.

The Fund's holding in Boardwalk REIT was sold because of the company's modest growth. Several gold and financials sector holdings were reduced after strong performance. A holding in Constellation Software Inc. was reduced because of concerns about the potential impact of AI and the resignation of the company's Chief Executive Officer.

Distribution of the chart, history standard and short-term reports are not permitted without including the fund profile long-term report. For money market fund reports: The current yield is an annualized historical yield based on the seven-day period ended on the date noted above and does not represent an actual one-year return. Reports produced using this website are for information purposes only. Canada Life Investment Management Ltd., and their affiliates, representatives, and third party content providers do not warrant the accuracy, completeness, or timeliness of this website or any content, and shall not be responsible for investment decisions, damages, or other losses resulting from the use of this website or its content. The only true report on unit values is the periodic statement prepared and sent by the mutual fund company. Important information about Canada Life Mutual Funds is found in Fund Facts. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and does not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. Money market fund units are not covered by the Canada Deposit Insurance Corporation or by any other government deposit insurer. There can be no assurances that the fund will be able to maintain its net asset value per unit at a constant amount or that the full amount of your investment in the fund will be returned to you. Past performance of the funds may not be repeated. Canada Life Mutual Funds are managed by Canada Life Investment Management Ltd. The funds are distributed by Quadrus Investment Services Ltd., IPC Investment Corporation, and IPC Securities Corporation, and may also be available through other authorized dealers in Canada.
