

Canada Life Canadian Growth Balanced Fund - T5 and W5 Series

February 13, 2026

This document contains key information you should know about Canada Life Canadian Growth Balanced Fund - T5 and W5 Series. You can find more detailed information in the fund's simplified prospectus. Ask your representative for a copy, contact Canada Life Investment Management Ltd. ("CLIML") at 1-844-730-1633 or visit www.canadalifeinvest.ca.

Before you invest in any fund, consider how the fund would work with your other investments and your tolerance for risk.

A meeting of investors will be held on or about April 10, 2026 to consider and approve a proposed merger of the fund, whereby investors of the fund would become investors of Canada Life Strategic Income Fund. If approved, the merger will be implemented on or about April 24, 2026.

What does the fund invest in?

The fund seeks capital growth and income by investing primarily in a combination of Canadian equities and fixed income securities, either directly or through other investment funds. The fund's asset mix will generally range between 60%-90% equities and 10%-40% fixed income securities, including cash and cash equivalents. The fund may hold up to 40% of its assets in foreign investments.

The charts below give you a snapshot of the fund's investments on December 31, 2025. The fund's investments will change.

How risky is it?

The value of the fund can go down as well as up. You could lose money. One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility". In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

CLIML has rated the volatility of this fund as **low to medium**. This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the Risks of Investing in the Fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how T5 Series securities of the fund have performed over the past 5 years. Returns are after expenses have been deducted. These expenses reduce returns. The performance of W5 Series securities would be similar to the performance of T5 Series securities, but would vary as a result of the difference in the combined management and administration fees compared to T5 Series as disclosed in the fee decrease table under "Fund expenses" below.

Year-by-year returns

This chart shows how T5 Series securities of the fund performed in each of the past 5 years. The fund dropped in value in 1 of the 5 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for T5 Series securities of the fund in a 3-month period over the past 5 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.5%	January 31, 2024	Your investment would rise to \$1,085
Worst return	-6.9%	June 30, 2022	Your investment would drop to \$931

Average return

A person who invested \$1,000 in T5 Series securities of the fund since its inception would have had \$1,439 as of December 31, 2025. This is equal to an annual compounded return of approximately 7.1%.

Who is this fund for?

Investors who:

- are looking for a Canadian balanced fund to hold as part of their portfolio
- want a medium- to long-term investment
- can handle the volatility of stock and bond markets
- want to receive a monthly cash flow

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell T5 Series and W5 Series securities of the fund. The fees and expenses – including any commissions – can vary among series of a fund and among funds.

Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

We provide eligible investors with combined management and administration fee decreases on their eligible Canada Life fund investments, as disclosed under the sub-heading "Fund expenses". We will automatically switch your T5 Series securities into W5 Series securities of the fund (bearing lower combined management and administration fees) upon your investment amount in eligible Canada Life funds meeting the \$500,000 minimum total holdings requirement. If you or your eligible accounts, as applicable, no longer meet the requirements to be eligible for W5 Series, we may switch your securities into T5 series, which has higher combined management and administration fees than W5 Series. See "Fees and Expenses" in the fund's simplified prospectus and speak to your representative for additional details.

1. Sales charges

You can only buy these series of the fund under the sales charge purchase option.

Sales charge option	What you pay (in %)	What you pay (in \$)	How it works
Sales charge purchase option	T5 Series: 0% to 5% W5 Series: 0% to 2%	T5 Series: \$0 to \$50 on every \$1,000 you buy W5 Series: \$0 to \$20 on every \$1,000 you buy	You negotiate the sales charge with your representative. You pay it to your representative's firm at the time you purchase the fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the fund's returns.

T5 Series has higher combined management and administration fees than W5 Series. As of September 30, 2025, the fund's expenses were as follows:

	Annual rate (as a % of the fund's value)	
	T5 Series	W5 Series
Management expense ratio (MER) This is the total of the management fee (including the trailing commission), fixed administration fee and fund costs. CLIML waived some of the fund's expenses. If it had not done so, the MER would have been higher.	2.32%	1.94%
Trading expense ratio (TER) These are the fund's trading costs.	0.04%	0.04%
Fund expenses	2.36%	1.98%
For every \$1,000 invested, this equals:	\$23.60	\$19.80

The table below sets out the combined management and administration fee decrease from T5 Series to W5 Series.

Total holdings	Series	Combined management and administration fee decrease (from T5 Series)(%)
Up to \$499,999	T5	N/A
\$500,000 and above	W5	0.21%

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch securities of the fund.

Fee	What you pay
Switch fees	If you switch between series of the fund or to another Canada Life Fund, you may pay your representative's firm a switch fee of 0-2%.
Inappropriate short-term trading fee	A fee of 2% of the amount switched or redeemed will be charged by the fund for inappropriate short-term trading.
Excessive short-term trading fee	A fee of 1% of the amount switched or redeemed will be charged by the fund if you invest in the fund for less than 30 days and your trading is part of a pattern of short-term trading that CLIML believes is detrimental to fund investors.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual fund securities within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact CLIML or your representative for the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.
